MURDERER ARRESTED.

How and Why a Negro Roustabout Hilled a Fellow-Laborer on the Steamer John A. Seudder.

Yesterday Officer Pante arrested a negro named Marion Jones, who shot and killed a negro named James Saunders, alias Anderson, on the steamer John A. Scudder, the eighteenth of last month. Both men were roustabouts on the steamer Scudder, and had a difficulty while the boat was loading cotton at the mouth of White river. Jones being captain of the watch, ordered Saunders to go forward to help take on freight, ders to go forward to help take on freight, but the latter refused and threatened to kill the other negro. According to Jones's state-ment a quarrel ensued and he was compelled to use his pistol, as Saunders had attacked him with a knife. Jones fired one shot, the bullet striking Saunders and producing in-stant death. The officers of the boat permit-ted Jones to go ashore at Chicot City, Arkansas, where he remained until two weeks ago, when he came to Memphis. He acknowledged the killing, and says he is prepared to stand trial. A negro who witnessed the killing says that Jones was at fault and had no provocation for the taurder of Saunders, whom he laid in wait for and met as he came from the rear part of the boat. The prisoner is now in jail awaiting the action of the Chicot City authorities, who have been notified of Jones's arrest. Jones's arrest.

Subt as the latter refused and offered resistance, he fired twice. One load of shot, No. 5, struck Beavis in the right side, producing a very painful wound. A part of the other load struck Beavis in the head. This had the desired effect, as Beavis was easily captured, he being then within two miles of Hernando, DeSoto county, Mississippi. Beavis was turned over to Draper, an unauthorized and self-constituted agent of the great State of Tennessee, who had neither warrant nor requisition, the latter being required by law. The prisoner was carried before Justice Hoegel, of Shelby county, Tennessee, who, having of Shelby county, Tennessee, who, having jurisdiction, committed him to jail. The Hot Springs (Ark.) Sentinel, of the ourteenth, says: "About five o'clock yesterday evening, near the Arlington operahe one of the most cowardly murders was attor of the Sentinel, to be found in the annals of crime. Mr. Matthews was met while on his round for news items, by the Maniac Mayor Linde, and knowing that Matthews never went armed, he drew a revolver and at ose range began firing upon Matthews, who grappled with the maniac. After he had re-ceived one wound through the wrist, and in the scuille received another through the right breast, breaking his right arm below the shoulder joint, he secured the pistol, which fell at the feet of the murderer, who drew another pistol and flourishing it around shot Alderman Davis through the thigh, and a man namedjoller through the shoulder."

The origin of the difficulty is not stated, though it was doubtless provoked by the repeated attacks of the Sentinel upon Mayor Linde, who is a well-known dentist, and formerly resided in Memphis. During the absence of Mayor Linde lest During the absence of Mayor Linde, last summer, and since his return, the Sentinel has seen proper to criticise his conduct in the severest manner. This doubtless led to the attack on Mr. Matthews, who is severely wounded, and may not survive his injuries though not dangurously, wounded. As to the merits of the case, we are not acquainted. Very recently Mayor Linde published a card stating that the city council would hold secret sessions, irrespective of the remarks of the Sentinel. The city attorney also published

SEWING-MACHINES. THE NEW SEWING-MACHINE.

WHAT IT IS.

IT is the mest powerful and durable, the lightestrunning, and most stient Sewing-Machine made.
POWER.—The application of force directly over
the needle insures ample power and enables it to go
through the heaviest work with ease.

DURABILITY.—All the working parts are thoroughly hardened, and so adjusted that lost motion
can be readily taken up.

EASE OF ACTION.—The simplicity of its machinery, the few bearings and points of friction, and
the absence of all cams and gear-wheels, give it a
light, easy action that requires but little motive
power. power.

It has an AUTOMATIC TENSION, which being self-regulating, does away with what in other machines is a fruitful source of annoyance and trouble.

There being no cogs to rattle, and no cams to rub and grind, it does its work without noise

Its action is so light and easy that it can be run by a fine cotton thread in place of the ordinary leather hand. a nine cotion thread in place of the ordinary leather band.

Specially recommended by the medical faculty on account of its light-running qualities.

"Why! how easy it runs!" is the invariable expression of those who operate it for the first time.

It is made and finished one hundred per cent, better than any other Sewing-Machine in the market. Its working parts are finished equal to the works of a fine watch. Mechanics and those who are familiar with machinery, are invited to call and examine it.

The indies are invited to call and examine it.

The hadies are invited to call and see the Domestic Linderbraider Sewing Machine.
